

We at F.C Strikerz would like to thank yourself and all the members of Concorde 1534 Lodge for your generous donation to our U8s Stingrays team. Grassroots football in the main relies on fundraising and donations to enhance the children's football experience and development. Your donation will provide this team with the opportunity to purchase wet weather training clothes and additional equipment to support more advanced training sessions. This will ensure that the children's welfare is maintained during testing weather conditions and will also further improve training sessions, helping to develop their football skills and techniques further. However the most valuable acquisition is that the team now has their own dedicated First Aid kit which is fully stocked and ensures that in the event of an incident whilst the child is in F.C Strikerz care, we can administer the appropriate First Aid immediately. The team received their wet weather training clothes at the last training session, to say that they were excited is an understatement. I have been reliably informed that some of the children have insisted on wearing their rain jackets outside of training. This is fantastic for the club as we strive to build awareness of our teams in the community in a bid to attract more children.

Please see attached photographs of the Stingrays modelling their new training clothes.

Thanks again, your generosity is massively appreciated

Steve Skolosdra
